Reasons for Allowance

The following is an examiner's statement of reasons for allowance: in a telephone interview on or about June 20, 2000, Richard Samuel pointed out that the device disclosed by the Langford et al. reference was designed to measure large differences in weight, such as the difference between an adult and an infant in a safety seat; it was not designed to measure small changes in weight which would be necessary to monitor the administration of medicine to a patient.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
